

Stourport Canal Basins

Discover a wealth of information about the historic heart of Stourport-on-Severn and its origin as a canal town at the award-winning Stourport Canal Basins. The basins remain largely intact from the golden age of the canals and have recently been restored, regenerated and returned to their original Georgian splendour, creating an exciting and informative heritage attraction.

The canal basins provide a great place to wander around at leisure and explore. The abundance of water creates an air of peace and tranquillity. Relax and unwind in one of the local pubs, cafes and restaurants in and around the Canal Basins. Watch boats travelling through the locks and five historic basins which house nearly 100 narrow boats and yachts and many listed Georgian houses and warehouses.

Enjoy the annual programme of events (details inside) and two Heritage Rooms (restricted opening). The Tontine Stable Heritage Room is accessible to customers of The Windlass Cafe daily through a connecting door. See website for opening times for The Old Ticket Office Heritage Room.

Group bookings for costume guided walks/tours are welcomed. For the latest updates and for further information on these events visit www.stourporttown.co.uk or contact Stourport Forward on 01299 822827.
